

## S2 into S3 COURSE CHOICE FORM - ADVICE

Over the coming weeks, students in S2 will make their subject choices for next session. In preparation for this, please take the opportunity to talk to your child about what different pathways are open to them and what subjects would help them achieve the best results possible. The subjects that your child chooses in S3 will be the only subjects they can choose from when they move into S4 so they need to choose carefully. The only exceptions to this will be for students who pick a school/college partnership course or one of the select courses that only start in S4.

### **New S3 Students should remember the following:**

- All students must continue with English, Maths and French
- All students must pick a Social Subject
- All students must pick a Science option
- All students must pick a Technology based subject
- All students must pick an Expressive subject
- All students must pick a free choice which can come from Social, Science, Technology, Expressive plus a range of other options
- All students must pick a reserve

### **Additional Advice:**

Students currently in S3 should think about the subjects they are strongest in to maximise their chances of success. Think about:

- Tracking reports
- Assessment results
- Future pathways to Higher and beyond
- Look at University entry requirements/College entry requirements if Further or Higher education is a pathway you are considering

**Students will be called down to the Assembly Hall where a member of the Senior Management Team, along with their Head of House, will help them make their choices. They will then bring a copy of their form home for a parent/carer to check and sign.**

**If any changes to the initial choices are made at home, please make sure they are clear and signed by a parent/carer next to the change.**

# S2 into S3 COURSE CHOICE FORM - ADVICE

## Social Subjects Options

- History
- Modern Studies
- RMPS
- Global Studies
- Admin & IT
- Business Management

## Science Options

- Biology
- Chemistry
- Physics
